Introduction. Whether due to the long-term effects of deinstitutionalization, inadequate community resources, the large numbers of uninsured individuals, or other causes, it is inarguable that emergency department presentations of psychiatric problems are on the rise. 1 As a result, the treatment of psychiatric emergencies“acute disturbances of thought, mood, or behavior that require ...

1. Introduction. Falls and falls with injury are one of the most commonly reported adverse events in hospitals. In the United States, approximately 700,000 to 1,000,000 patients fall annually during their hospitalization and up to half of these falls result in an injury (Agency for Healthcare Research and Quality [AHRQ], 2013). Falls may prolong length of stay and contribute to morbidity ...

Inpatient fall prevention from the patient's perspective

Substance dependence, also known as drug dependence, is an adaptive state that develops from repeated drug administration, and which results in withdrawal upon cessation of drug use. A drug addiction, a distinct concept from substance dependence, is defined as compulsive, out-of-control drug use, despite negative consequences. An addictive drug is a drug which is both rewarding and reinforcing.
