Primitive Passion Decorating

Heart development (also known as cardiogenesis) refers to the prenatal development of the human heart. This begins with the formation of two endocardial tubes which merge to form the tubular heart, also called the primitive heart tube, that loops and septates into the four chambers and paired arterial trunks that form the adult heart. The heart is the first functional organ in vertebrate ...

Welcome to Primitive Christianity Digital Library! Primitive Christianity digital library. is dedicated to those who are seeking a revival of pure, genuine biblical Christianity. By no means do we want to leave the impression that we have fully recaptured this "faith once given unto the saints" in its fullness.

Effects of Maltreatment on Brain Development

Understanding the Effects of Maltreatment on Brain Development

The heart is a muscular organ in most animals, which pumps blood through the blood vessels of the circulatory system. Blood provides the body with oxygen and nutrients, as well as assisting in the removal of

metabolic wastes. In humans, the heart is located between the lungs, in the middle compartment of the chest.. In humans, other mammals, and birds, the heart is divided into four chambers ...

Hey Everyone!!! I am praying I will not screw this up! I am in the middle of the Atlantic Ocean on my way to the Azores! then Gibraltar UK, two stops in Spain- then Italy! 14 days to get there! and my Block Head is posting during this time! I am sure it will post early as we are a couple of hours ahead of the US! but I'm sure at this point what's the big deal with when it posts!

x Large airway reconstruction is difficult and requires a flap which will mirror the tissue variety. The main challenge is to keep the reconstruction stable and prevent collapse. In this report, the authors present a laryngotracheal reconstruction with a buccal mucosa-prefabricated medial femoral condyle free flap, after chondroma excision in a one-step procedure.
