So you made a mistake. Now what to do? Pout about it or learn from it? Or better yet, discover why the mistake was a good thing. Consider this: If you're willing to learn from everything that happens to you, including your biggest setbacks, failures and mistakes, then you will inevitably find that the imperfections were absolutely necessary to help you get where you want to go in life.

Play is essential to development because it contributes to the cognitive, physical, social, and emotional well-being of children and youth. Play also offers an ideal opportunity for parents to engage fully with their children. Despite the benefits derived from play for both children and parents, time for free play has been markedly reduced for some children.

Sara Rimm-Kaufman, PhD, and Lia Sandilos, PhD, University of Virginia. Improving students' relationships with teachers has important, positive and long-lasting implications for both students' academic and social development.

## **Improving Students' Relationships With Teachers**

Study skills, academic skill, or study strategies are approaches applied to learning. They are generally critical to success in school, considered essential for acquiring good grades, and useful for learning throughout one's life. Study skills are an array of skills which tackle the process of organizing and taking in new information, retaining information, or dealing with assessments.

Critical thinking is the analysis of facts to form a judgment. The subject is complex, and several different definitions exist, which generally include the rational, skeptical, unbiased analysis, or evaluation of factual evidence. Critical thinking is self-directed, self-disciplined, self-monitored, and self-corrective thinking. It presupposes assent to rigorous standards of excellence and ...
