Garlock Equipment Company - Roofing Equipment & Safety Systems

A home with residential metal roofing stands with more pride than neighboring homes, and for good reason. The beauty of a metal roof is superior to the asphalt shingles most homeowners think of when envisioning a residential roof.

Residential Metal Roofing - Petersen Aluminum PAC-CLAD

A green roof or living roof is a roof of a building that is partially or completely covered with vegetation and a growing medium, planted over a waterproofing membrane. It may also include additional layers such as a root barrier and drainage and irrigation systems. Container gardens on roofs, where plants are maintained in pots, are not generally considered to be true green roofs, although ...

Flagstone (flag) is a generic flat stone, cutting regular rectangular or square in shape and usually used for paving slabs or walkways, patios, flooring, fences and roofing. It may be used for memorials, headstones, facades and other construction. The name derives from Middle English flagge meaning turf, perhaps from Old Norse flaga meaning slab or chip.

Construction Industry Outlook: M&A Trends and Future

Differences between 316 and 316L stainless steel. 2002. A. 316 and 316L differ only by the amount on carbon in them. As I understand it, 316 L has lower carbon such that when welded the chromium carbide that forms does not deplete the chromium to the point where the corrosion of the stainless is deleteriously impacted.

Differences between 316 and 316L stainless steel - Finishing

Whether your driveway is concrete or asphalt, sealing it is an important part of keeping it looking like new for a long time. Asphalt driveway sealer, which sits on top of the driveway, acts as a barrier that prevents water, ice, car fluids, the sun, salt and other chemicals from staining and eating away at the surface of the driveway.

How Much Does it Cost to Seal an Asphalt Driveway? | Angie

WBDG is a gateway to up-to-date information on integrated 'whole building' design techniques and technologies. The goal of 'Whole Building' Design is to create a successful high-performance building by applying an integrated design and team approach to the project during the planning and programming phases.
