deals with the conceptual framework of a study as the literature review. This can be a dangerously misleading term. In developing your conceptual framework, you should not simply review and summarize some body of theoretical or empirical publications, for three reasons: 1. It can lead to a narrow focus on the literature, ignoring other ...

5. Data Driven Framework in QTP In Data Driven Framework, the data is NOT hard-coded in the test scripts. Instead, it is stored in some external files. The test script first connects to the external data source and then

extracts the data from that source. Most of the times, excel sheets are used to store the data.
