The giant puffball, *Calvatia gigantea* (earlier classified as *Lycoperdon giganteum*), reaches a foot (30 cm) or more in diameter, and is difficult to mistake for any other fungus. It has been estimated that a large specimen of this fungus when mature will produce around 7×10^{12} spores. If collected before spores have formed, while the flesh is still white, it may be cooked as slices fried in ...

If you've ever watched the game of basketball, the great basketball teams . set very good screens (picks).. Screens (picks) will open up your offense in many ways. It doesn't matter if you primarily use a ball screen offense or an open post offense. For example, when an offensive player sets a good screen (pick) the offensive player receiving the screen will have a good opportunity to score ...
