You shouldn't be using the BinaryFormatter for this - that's for serializing .Net types to a binary file so they can be read back again as .Net types.. If it's stored in the database, hopefully, as a varbinary - then all you need to do is get the byte array from that (that will depend on your data access technology - EF and Linq to Sql, for example, will create a mapping that makes it trivial ...

If you have been served with a summons and legal complaint, you are being sued. This means you are a defendant in a civil case that has been filed. Failure to timely respond could result in a default judgment being entered against you, in which case you would forfeit your right to respond and the person who sued you would prevail. Being sued is a serious matter and requires immediate action.
