

the singularity race pdf

The technological singularity (also, simply, the singularity) is the hypothesis that the invention of artificial superintelligence (ASI) will abruptly trigger runaway technological growth, resulting in unfathomable changes to human civilization.. According to this hypothesis, an upgradable intelligent agent (such as a computer running software-based artificial general intelligence) would enter ...

the sixth lie

the sixth lie is that the customer is always right. This is a dangerous lie because it leads to a loss of control over the company's destiny. The customer is not always right, and the company must be able to stand up to the customer when necessary. The sixth lie is that the customer is always right.
