Ansell Sandel's Change-A-Blade™ is a protective safety handle to be used in operating rooms. This surgical blade has a safety handle to help prevent injuries.

Surgical Blade Handle - Change-A-Blade® - Scalpel Handles

Tissue-Specific Soft Tissue Response – In contrast, soft tissue responds elastically in contact with the blade, that is, it moves, deforms

SafetyMatters - Misonix

Modified Darrach-type Elevators Available in four widths. Used for soft tissue retraction and exposure. May also be used to lever the humeral head inferiorly or superiorly and medially to expose the humeral head from the glenoid while dislocating the humeral head after subcapularis removal.

Innomed Shoulder Instruments – retractors & elevators

Your shoulder is made up of three bones: your upper arm bone (humerus), your shoulder blade (scapula), and your collarbone (clavicle). The shoulder is a ball-and-socket joint: the ball, or head, of your upper arm bone fits into a shallow socket in your shoulder blade.

Blade II is a 2002 American superhero film based on the fictional character Blade from Marvel Comics. It is the sequel of the first film and the second part of the Blade film series, followed by Blade: Trinity. It was written by David S. Goyer, who also wrote the previous film, directed by Guillermo del Toro, and had Wesley Snipes

returning as the lead character and producer.

Blade II - Wikipedia

Founded in Sheffield during 1932, Swann-Morton have become a world leader in the manufacture of surgical blades, scalpels and handles. It is a name respected globally for quality, precision, consistency and reliability and recognised for combining traditional blade making skills with the latest technology.

Obsidian is a naturally occurring volcanic glass formed as an extrusive igneous rock.. Obsidian is produced when felsic lava extruded from a volcano cools rapidly with minimal crystal growth.It is commonly found within the margins of rhyolitic lava flows known as obsidian flows, where the chemical composition (high silica content) causes a high viscosity which, upon rapid cooling, forms a ...
