A number of Native Police organisations were established in Australia during the 19th Century employing armed and mounted Aboriginal trackers under white officers to carry out various duties, the foremost of these being punitive missions against Aboriginal peoples who resisted colonialisation. During the goldrush era, they were also used to patrol goldfields and search for escaped prisoners.

A BitTorrent tracker is a special type of server that assists in the communication between peers using the BitTorrent protocol. In peer-to-peer file sharing, a software client on an end-user PC requests a file, and portions of the requested file residing on peer machines are sent to the client, and then reassembled into a full copy of the requested file.

Coyotes on the other hand are omnivores meaning that they can and will eat most anything that is available when they get hungry. This might include nuts, berries, plants or any meat source such as a rabbit, squirrel or bird and this could include your small pet if the opportunity is present and there is nothing to prevent the attack.
