In Nova Scotia, about 70% of forested lands are under private ownership. The forestry sector employs about 13,000 people in Nova Scotia and contributes significantly to our national economy. Knowing the characteristics of trees may help us understand how to take care and use the forestry resources wisely for the benefits of present and future generations.

Split page, species info on the left, room for notes on the right. Species info will be truncated to fit on the page.

### **Common Native Trees of Nova Scotia - iNaturalist.org**

tree species native to Nova Scotia were represented in the Pugwash area (Table 1). This means that 30 of the tree species we found are not native to Nova Scotia (these are sometimes called alien or exotic species) (Table 2). Table 1. Trees of Nova Scotia found in Pugwash (note: some trees were identified to the genus only).

(The Maritimes Region includes Nova Scotia, New Brunswick and Prince Edward Island.) For 1991, Maritime forest nurseries shipped 70.5 million seedlings, and 88% of the seedlings were made up of only 4 species: black spruce (54%), white spruce (12%), jack pine (12%), and Norway spruce (10%) - an introduced species.
