Our latest count shows 86 native tree species in New Hampshire. The exact number is hard to determine because some are rare, some are mostly found as shrubs, and others can be distinguished from each other only by the most determined dendrologist. This List of New Hampshire Native Trees lists species that are native to at least part of New Hampshire and capable of growing into

Identifying Trees and Shrubs in New Hampshire - UNH Extension

In botany, a tree is a perennial plant with an elongated stem, or trunk, supporting branches and leaves in most species. In some usages, the definition of a tree may be narrower, including only woody plants with secondary growth, plants that are usable as lumber or plants above a specified height. Trees are not a taxonomic group but include a variety of plant species that have independently ...

This is a list of Southern African trees, shrubs, suffrutices, geoxyles and lianes, and is intended to cover Angola, Botswana, Lesotho, Malawi, Mozambique, Namibia, South Africa, Swaziland, Zambia and Zimbabwe.. The notion of 'indigenous' is of necessity a blurred concept, and is clearly a function of both time and political boundaries.

List of Southern African indigenous trees and woody lianes

This site is a service of the Consumer Horticulture Program at Purdue University. While the information is prepared with Indiana and other gardeners in the Midwestern U.S. in mind, much is applicable to gardeners around the globe.

The Morton Arboretum works toward a greener, healthier, more beautiful world by planting and protecting trees in urban areas as well as forests. It's not only for the trees' own sake, but because they provide many concrete benefits for people and society. To help us, trees need our care—planting, mulching, pruning, and watering. But it's worth it: Researchers have studied the benefits of ...
